CAREER OBJECTIVE

I am a BTech Computer Science student with a strong interest in learning technology and understanding how things work. Currently, I am building my foundation in web development using HTML, CSS, and JavaScript. I believe in improving step by step through consistent practice and effort. I am someone who communicates well, takes responsibility, and is always open to learning and improving myself.

GOAL

My goal is to become a scientist at ISRO. I am deeply interested in space and how things work beyond our planet. I want to be part of missions that explore space and help us learn more about the universe. Step by step, I hope to grow, keep learning, and make a meaningful contribution.

EDUCATION

BTech in Computer Science

2025 – 2029

Sahrdaya College of Engineering and Technology,
Kodakkara, Thrissur

Higher Secondary Education (Plus Two)

2022 – 2024

CJMAHSS Varandarappilly, Thrissur

Secondary Education (SSLC)

2021 – 2022

CJMAHSS Varandarappilly, Thrissur

PROJECTS

• DECRYPT.AI

A conceptual website idea aimed at identifying early signs of depression.

• ECOGUARD

A project idea focused on predicting electricity bills to help users manage energy consumption efficiently.

• LOGICO

A system concept designed to automatically control electrical devices based on whether a person is at home or not.

CERTIFICATIONS

- DIGITAL 101 (30 hours) – Certified by NASSCOM.
- AI for Workforce – Certified by Dell Technologies.
- Pursuing an online course from Oracle.
- Participated in various workshops.

ACHIEVEMENTS

- G20 Veer Gatha – Participated in a national-level initiative celebrating courage and service.
